#### **14. Antenna Placement Agreement**

This Antenna Placement Agreement ("Agreement") is made between Building Owner (Member) and FNW, LLC (FreedomNet Solutions), a Michigan Corporation.

FreedomNet Solutions is deploying a Wireless Network in your community. This Network will provide high-speed internet services and connectivity for business and residential Members using radio frequencies.

a) Premises – The Building Owner (Member) warrants and represents it owns and has title to the property, structures and other improvements at the address given. FreedomNet Solutions or its professional staff may from time to time require access to the premises for installation, maintenance and/or removal of its equipment. FreedomNet Solutions typically provides the Building Owner/Member with advanced notice prior to requiring access to its equipment. Exceptions to this policy for emergency service restoration may arise. Equipment that is located and accessible outside the premises will be available for service 24 hours per day, 7 days per week, and 365 days per year (24/7/365). Prior notice to Building Owner/Member may be attempted. If Member is in delinquent status FreedomNet Solutions may access property for the sole purpose of removing FreedomNet owned equipment at any time without prior notification.

b) Equipment – The above parties agree that in order for FreedomNet Solutions to provide high-speed internet services, Building Owner/Member agrees to provide FreedomNet Solutions with an elevated location to mount Antenna Equipment, an accessible location to mount its Outdoor Equipment, Electrical Power to operate its equipment and the means to interconnect the aforementioned. If ordered by the Member, FreedomNet Solutions or its designated agents will install antenna equipment, outdoor equipment and connect these components with cables. (Detailed descriptions of these components are available.) Any additional or replacement power outlets and wiring, if required, will be installed by the Member at their sole expense. The Building Owner/Member will provide FreedomNet Solutions continuous Access to any associated GFI circuit breaker. If ordered by the Member and before installing the Equipment, FreedomNet Solutions will define to the Building Owner's/Member's satisfaction the location and means of mounting the Antenna Equipment, Outdoor Equipment, Interconnecting Cabling and any new power outlet. The Equipment installation will be performed (1) in good and quality workman-like manner, (2) in accordance with the pre-defined plans and (3) without interfering with the function or use of any portion of Building Owner's structure or improvement.

FreedomNet Solutions will (1) operate and maintain its own equipment in a safe and good condition. When performed by FreedomNet Solutions, installation, operation, maintenance and removal of Equipment will at all times comply with all applicable regulations and standards. FreedomNet Solutions will, at its expense, perform all acts necessary to ensure that its employees and contractors and its Equipment are at all times in strict compliance with all applicable (1) technical standards, (2) federal, state and local laws, ordinances, and regulations and orders of the Federal Communications Commission. FreedomNet Solutions takes no responsibility for equipment or damage to equipment or premises/building when a Member or any non-certified FreedomNet Solutions Personnel performs installation or service.

c) Interference – At any time any electrical output, electromagnetic output, radio frequencies or other interference (collectively, “Interference”) may degrade a Member’s signal quality. This interference is often beyond the control of FreedomNet Solutions and while every attempt to mitigate Interference will be made, from time to time complete removal of interference is impossible. Each Member understands that because trees hold water, they can absorb the radio signal, and that will degrade or disrupt the connectivity. A Member may be installed during a time of year when there are little or no leaves in the trees and may have loss of connectivity when the leaves come back on the trees. FreedomNet Solutions will try, within reason, to reconnect the Member’s antenna. In some cases the Member may be required to pay for additional hardware to get re-connected. In some rare cases a Member may not be able to be reconnected due to these issues. In such event, at FreedomNet Solutions sole discretion, a Member may be released from their Service Agreement Term. Under no circumstances will credit be provided to a Member’s account for interference. FreedomNet may, at its discretion, offer alternative solutions.

d) Transfer – FreedomNet Solutions will have the right to transfer this Agreement without the Building Owner’s/Member’s consent. The Building Owner/Member will have no right, however, to transfer this Agreement without FreedomNet Solutions’ prior consent.

e) Termination – After the initial two-year Term, this agreement may be cancelled by either party, for any reason, or reasons outlined in FreedomNet Solutions’ Acceptable Use Policy found at <http://freedomnet.com/about/acceptable-use-policy/> with 30 Days advanced notice.

## **15. Acceptable Use Policy**

Member agrees to be bound by the provisions of the FreedomNet Solutions Acceptable Use Policy, which is incorporated by reference, including all legal obligations arising there under.

Additionally, Member will NOT use FreedomNet Solutions services to: 1.) OPERATE any Internet Service Provider enterprise, 2.) COMPETE in any way with FreedomNet Solutions or 3.) RESELL in ANY way without FreedomNet Solutions’ prior written approval.

## **16. Service Level Agreement**

FreedomNet Solutions stands behind its services with a goal to provide each user Internet access to its network 99% of the time. This does not include scheduled maintenance, testing time, or conditions outside the control of FreedomNet Solutions. Access and throughput on the Internet may vary and not be a result of FreedomNet Solutions network access services. Member credits will not be issued for Internet throughput related issues unless determined solely by FreedomNet Solutions to be issued.

## **17. Execution of Agreement**

This Agreement will become effective immediately upon installation of member service(s).
